ABOUT ME

I am interested in Full Stack web application development. I have gained practical experience in website development through internships and capstone projects. My technical foundation includes Front-end technologies such as React, Next.js, and TypeScript, as well as Back-end development with Node.js and PHP, including database management. I am capable of working effectively within teams, learning new technologies, and applying my knowledge to develop software solutions that address real user needs.

EDUCATION

2022 – Present	Information Technology and Communication
Prince of Songkla University	Faculty of Science
	4th Year Student
	GPAX: 3.03

EXPERIENCE

- | | |
|--|----------------------------|
| Web Developer-RSP-South-Catering (Internship) RSP-South-Catering Web | Apr 2026 – Jun 2026 |
| <ul style="list-style-type: none">Developed a catering food booking website for the Southern Science Park conference rooms using Next.js, TypeScript, and Tailwind CSSDesigned and implemented a catering package management system with features including price calculation and meal quantity recommendations based on event attendanceEnhanced user interface design and streamlined data management processes to reduce preparation steps for conference organizers | |
